If neglected now, the disease advances until the face looks pale or sallow, puffy or dark circles under the eyes, feet swell, and sometimes the heart acts badly. There is comfort in knowing that Dr. Kilmer's Swamp-Root, the great kidney, liver

and bladder remedy, fulfills every wish in quickly relieving such troubles. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate.

PRESIDENT MITCHELL AND MINERS'

OFFICIALS REACH A DECISION.

Adjustment of Differences Between Operators and Miners in District 21 Alone May Prevent the Order.

According to a decision arrived at by President John Mitchell, Vice President Thomas Lewis and Secretary William B. Wilson, of the United Mine Workers, the strike of the coal miners in District 21, embracing Colorado, New Mexico, Wyoming and Utah, will be called on Nov. 9 unless the differences between the operators and miners can be adjusted by conference before that date. The miners have made repeated efforts to confer with the operators, but the latter have refused to consider the invitations and contend that they will hold out against the demands of

the miners under all circumstances. The situation in Colorado has been a critical one for several weeks. Already there is a strike in the Cripple Creek districts of the metalliferous miners, numbering about 1,200, and the State militia has been on the field, Governor Peabody refusing to withdraw them until the miners of all classes are subdued. The strike, which will be called by the mine workers, will affect about 30,000 miners and will be one of the most serious strikes of miners in the West. The feeling between the operators and the miners is very bitter and it is feared that there will be many disastrous results should the two clash. The trouble reverts to the demands made by the United Mine Workers of the district several weeks ago, asking for a slight increase in wages, shorter hours of labor and better ventilation in the mines. The miners, although much dissatisfied with the condition, are still working at the mines awaiting the call from headquarters to strike. Unless the attitude of the operators changes very suddenly it is not expected that the differences will be adjusted before the date set for the strike. The officials of the organization are making every overture possible in order to come to some satisfactory settlement without the necessity of resorting to a strike that may tie up the coal traffic in the entire West.

HORSE'S QUEER DEATH.

It Falls from Second-Story Window and Breaks Its Back. A horse belonging to Albert Leiber be-

came suddenly frightened last night at the Hotel DeHoss livery barn, on Ohio street, and jerking away from the man who was holding it, plunged headlong out of a second: story window. With a horrible thud it struck the pavement below and its back was broken by the fall. Sergeant Giblin, of the police department, was nearby when the accident happened, and, with his re-volver, ended the sufferings of the animal.

TRIED TO KILL HIS WIFE

W. H. BAXTER PINNED HER BEHIND STOVE AND SHOT.

Woman Fainted and He Fled, Thinking He Had Succeeded-Police Search for Husband.

Mrs. Kate Baxter, 540 Indiana avenue, rushed into the police station last night and told the desk sergeant that she wanted her husband arrested at once, as he had tried to kill her with a rifle. Her husband, she said, runs a bicycle store in the building where they live, and last night became enraged because he could not find some leases which he had placed in a

drawer for safe keeping. He accused her of stealing them, and when she denied it he dragged a stove against the front door of his place of business and, getting behind his wife so that her escape was impossible, shot at her with a rifle. She fainted, and, thinking that he had killed her, the enraged husband ran out the back door and, it is thought, left the city.

He soon revived the woman, who was half dead from fright, and as soon as she was able she went to the police with her tale Several days ago! she said, her husband cut her skirts off of her with a razor, in a wild attempt to kill her, and two weeks ago he shot at her with a revolver. She will secure a divorce at once, she says, and in the meantime the police are searching for her husband, who will be prosecuted or a charge of shooting with intent to kill, if
